

PATRICK COUNTY, VIRGINIA

INVITATION FOR SEALED BIDS

WASTE TRANSPORTATION AND DISPOSAL SERVICES

IFB# 2023-42400-0922

The County of Patrick is requesting sealed bids from qualified private firms and public entities to provide transportation and disposal services for acceptable non-hazardous solid waste generated within Patrick County.

The County is requesting bids that will provide hauling and disposal services for approximately 10,000 tons of acceptable waste annually for an initial contract term of five years, with contract renewal options for three additional five-year terms. Following Contractor selection and contract negotiations, the County anticipates a contract start date July 1, 2023

The population of Patrick County is projected to stay close to current levels through 2030. Accordingly, waste disposal quantities are also expected to remain similar to current quantities unless the service area changes (no service area changes are currently proposed or anticipated). Contractors must accommodate the daily and seasonal variability in the annual tonnage delivered to the Transfer Station and/or to the Bidders out-of-County landfill.

Users of the Transfer Station will consist of municipal and commercial/industrial solid waste collection organizations as well as "self-haul" customers such as individual businesses and residents. The County will attempt to insure that unauthorized wastes are not accepted, but it cannot provide an absolute guarantee.

The Contractor shall dispose of the acceptable waste received from the County at a solid waste facility that meets federal "Subtitle D" disposal regulations and the regulations of the state in which the disposal facility is located. The Contractor shall comply with all other applicable federal and state codes and regulations regarding the hauling and landfill disposal of non-hazardous solid waste.

REQUIRED QUALIFICATIONS

To be deemed qualified, the Bidder must demonstrate the requisite experience, skill, and resources necessary to successfully provide the services and/or facilities and services requested in this IFB.

Bidders with at least five years of experience in providing solid waste hauling and/or disposal services to public sector clients with waste disposal requirements of at least 10,000 tons per year are preferred. Furthermore, the Bidder must provide evidence that it has the management, technical and financial qualifications to perform the services included in its proposal, in accordance with the requirements of this IFB. The Bidder must demonstrate that it can provide sufficient waste disposal capacity, in compliance with all applicable Federal, State and local codes and regulations to accommodate the acceptable waste tonnages projected to be generated for disposal by the County's residents and businesses over at least the initial five year period of the Service Agreement.

EXAMINATION OF SITE AND DOCUMENTS

It is the responsibility of each Bidder before submitting a bid to:

- Examine thoroughly all available site information, documents and data.
- Attend the pre-bid conference to become familiar with and satisfy Bidder as to the general, local and site conditions that may affect cost, progress, performance or furnishing of the Work.

The submission of a Bid will constitute an incontrovertible representation by Bidder: (i) that Bidder has complied with every requirement of the IFB, and (ii) that without exception the Bidder is premised upon performing and furnishing the Work required. Failure or omission to thoroughly examine any available site documents or visit the site shall in no way relieve the Bidder from any obligation with respect to its Bid or Service Agreement.

INFORMATION NOT GUARANTEED

Information provided in this Invitation for Bid relating to the Transfer Station site conditions is believed to be the best available, but is not guaranteed with respect to its accuracy or timeliness. All such information of existing conditions is furnished only for the information and convenience of the Bidder.

GENERAL RESPONSIBILITIES

Listed below are the major responsibilities the County believes each part can best address:

County Responsibilities

The County will:

- Negotiate in good faith and enter into an acceptable Service Agreement;
- Provide a fully permitted and operating Transfer Station at the closed Patrick County Landfill;
- Operate the Transfer Station scales for weighing vehicles;
- Provide appropriate scale data to Contractor on a timely basis; and
- Monitor hauling and disposal to assure compliance with the Service Agreement.

Contractor Responsibilities

The Contractor will:

- Negotiate in good faith and enter into a Service Agreement;
- Guarantee and deliver complete and operational hauling and disposal services;
- Operate and maintain fully permitted and operating contracted facilities and services;
- Provide sufficient numbers and types of certified operators at all times;
- Report and keep adequate records;
- Provide performance guarantees, performance bonds and other financial guarantees to ensure compliance by the Contractor of its obligations pursuant to the Service Agreement;
- Provide sufficient numbers and types of equipment at all times, including backup equipment;

- If applicable, cause the Contractor's parent company to execute an unconditional guarantee of the Contractor's performance and payment obligations pursuant to the Service Agreement;
- Provide an annual report demonstrating that the Disposal Facility has sufficient disposal capacity to continue to provide disposal services to the County over the remaining term of the Service Agreement, taking into account the quantities of waste projected to be delivered by, or on behalf of, the County and all other disposal customers;
- Provide for reasonable access by County employees and agents for the purposes of monitoring the Contractor's performance at the Transfer Station, during transport and at the Disposal Facility; and
- Comply with the Patrick County Solid Waste Ordinance, as amended.

SERVICE REQUIREMENTS

The amount of waste will vary on a daily, weekly, monthly and seasonal basis. The Contractor must guarantee to provide transportation and/or disposal capability to the County for the daily, weekly, monthly and yearly amounts of waste required to be transported from the Transfer Station. The tonnages may vary from those listed in the IFB and are not guaranteed.

WASTE HAULING

Once the waste is loaded into the trailers by the County and the County parks the trailer and disconnects from it, the Contractor assumes all liabilities associated with the waste, transport and discharge of the waste at the disposal facility including damage due to fire in the trailer or spillage and leaking of the waste.

The Contractor must provide sufficient number and types of personnel to efficiently and effectively provide the services pursuant to the Service Agreement. A representative of the Contractor shall be designated to respond to emergencies 24 hours a day. All personnel will be qualified for their positions, and will have the necessary licenses and certifications required by federal, state and local laws and regulations.

The Contractor will prepare and maintain proper, accurate, and complete records and accounts of all transactions related to the waste hauling. These records will include but will not be limited to insurance and regulatory inspection records; waste disposal fees and payments, personnel training records, equipment replacement records and schedules; equipment maintenance records, safety and accident reports including waste spillage, quantity of waste handled, quantity of waste/material delivered to the

disposal location, and any waste rejected at the Disposal Facility. The County will have complete access to all such records and any back-up documentation during the term of the Service Agreement and for five years following the conclusion of the Service Agreement.

The Contractor will provide the County with monthly reports within 10 calendar days after the end of each month, including but not necessarily limited to the following information:

- Scheduled operating days and shutdown days;
- Type and quantity of waste materials hauled and disposed;
- Maintenance summary;
- Accident reports;
- Anticipated operating schedule for the following month;
- Copies of all correspondence to and from government agencies related to hauling of waste from the transfer station including, USDOT, VDOT, VA State Police, VA Department of Environmental Quality, VA Department of Emergency Management and other correspondence as reasonable requested by the County. If hauling outside Virginia, the contractor shall provide copies of correspondence to and from the state agencies matching those specifically listed for Virginia; and
- Other records and data as deemed appropriate by the County.

Under normal operating conditions, waste will be continuously loaded during transfer station operating hours into trailers, provided by the Contractor. Except as may be changed by the Patrick County Board of Supervisors, the Transfer Station will be operated six days a week, Monday through Friday from 8:00 am to 5:00 pm and Saturday from 9:00 am to 1:00 pm. The Transfer Station will be closed on all state and federal holidays.

The Contractor will provide and maintain sufficient vehicles and equipment of adequate design and capacity to load and transport the acceptable waste from the Transfer Station to the Disposal Facility on a daily basis. The transfer vehicles must be suitable for hauling waste received at the Transfer Station and may be either walking-floor or tipping trailer design. The Contractor will determine the specific types and numbers of vehicles to be used. The Contractor shall provide enough trailers such that an empty trailer is always available during operating hours to load waste and no more than two trailers containing waste shall be left on-site at the end of the day. Enough trailers shall be provided to ensure that no waste is left on the tipping floor at the end of the day. All trailers provided must be leak-proof and fly- and rodent-resistant. Costs to the County associated with delays in loading waste caused by the Contractor not having trailers available when needed will be charged to the Contractor. Route modification or transport delays resulting from traffic, construction, adverse weather conditions, and other causes, shall not be deemed as cause for claim for extra reimbursement, additional fees, or damages against the County.

The Contractor will ensure that the vehicles present a neat, sanitary appearance, and that all materials are totally contained within the vehicle body. Before leaving the Transfer Station, the Contractor must

verify that each vehicle is ready for transport and has been suitably covered and cleaned of all loose or hanging material by the Transfer Station staff. All transfer vehicles shall weigh in and out at the Transfer Station so that the County can have accurate records of net weights. The official weigh record for each trailer shall be based on the certified scales at the disposal facility and shall include inbound and outbound weights at the disposal facility. The Contractor shall assist the County in investigating tonnages reported by the disposal facility that differ significantly from the County's Transfer Station weights if requested by the County.

EQUIPMENT REQUIREMENTS

The Contractor is required to provide all vehicles, fuel, lubricants, equipment, tools, materials and any other items required to provide the transportation services described herein, including the cost of all maintenance activities related to the vehicle fleet. All trailers must have top covers sufficient to prevent blowing of material in route to the landfill and free of leakage. Trailers must be compatible with the design of the load-out area of the transfer station and capable of being accurately weighed on the transfer station scales and the scale house scales at the transfer station. All trailer heights should be coordinated with applicable door heights and overhead clearances. All tractors and trailers shall comply with all applicable local, state and federal laws and requirements which include but are not limited to applicable requirements of the Department of Environmental Quality, the Department of Transportation and the Environmental Protection Agency. Except for minor repairs, maintenance and repair of Contractor's equipment shall not be performed on the County's property. Minor repairs include flat tires or other repairs that can be performed during one day's time without interfering with transfer station operations and without the need for extensive repair equipment or resources.

SCHEDULING & ROUTING

The Contractor will be responsible for coordinating loading and haul schedules with the Transfer Station supervisor and the Disposal Facility manager on a daily basis. For the purposes of the Bid, the Bidder shall submit a map showing and describing the route(s) to be used by transfer vehicles between the Transfer Station and the Disposal Facility. The Bidder shall determine that the proposed route(s) contain no road or bridge weight limits or other restrictions of any kind that would preclude their use by the loaded transfer vehicles. Upon award of a contract for hauling, the Contractor shall supply a contingency routing plan for situations when routes are temporarily (or permanently) unusable, when an alternative disposal facility must be used, and for other contingencies.

SOLID WASTE DISPOSAL FACILITY

The Bidder's proposed Disposal Facility must be constructed and operated in accordance with the applicable laws, rules, and regulations, including but not limited to the requirements of: (1) Subtitle D to

the federal Resource Conservation and Recovery Act; (2) the federal Clean Air Act; (3) the federal Clean Water Act; (4) OSHA; and (5) all state and local laws, rules, and regulations that may be applicable within the jurisdiction where the Disposal Facility is located and must be fully permitted for accepting non-hazardous solid waste from Patrick County. The Disposal Facility cannot be a landfill that has been "grandfathered" into the federal Subtitle D requirements promulgated by the State in which the disposal facility is located but must comply fully with the minimum design requirements contained in the Subtitle D regulations, including the provision of a composite bottom liner system (or approved alternate liner system) and a leachate collection, storage and treatment system, as well as other environmental protection systems specified in the Subtitle D regulations. The Bidder shall provide evidence of ownership or agreement for use of the Disposal Facility for Patrick County waste. The Contractor will be required to provide to the County satisfactory indemnification for the use of any Disposal Facility.

In the event that the Contractor wishes to change disposal sites, he/she may do so only after approval of an alternate site by the County. Any cost increases in transport or disposal caused by the change, shall be borne by the Contractor for the term of the Contract unless the change is in response to a force majeure and is negotiated with the County. Any cost decreases associated with the use of an alternate disposal site shall be passed on to the County. Annual fee escalators shall not include any increase in cost for change of disposal location.

Contractor's obligations include at a minimum equipment to properly weigh all vehicles in-bound and out-bound; construct and maintain all-weather on-site roads; keep roads dust-free and clear of snow and ice; construct and maintain operating daily cells; compact and dispose of waste. At no time will equipment outage be an excuse for non-performance at the Disposal Facility.

CRITERIA FOR EVALUATION

The bid will be evaluated according to the following criteria. Bidders are welcome to submit supporting information which describes their qualifications and capabilities regarding each of these criteria.

1. Prior experience in solid waste services including, but not limited to, waste handling and hauling. This will include the ability to safely and efficiently haul waste and provide safe waste disposal services.
2. Ability to have the proposed waste hauling and disposal services in place in time to meet the County's needs.
3. Proposed fee schedule, including factors, multipliers and adjustments.
4. Specifics regarding the Bidder's financial stability.
5. Ability to provide the most comprehensive parent guarantees, performance and level of insurance coverage to the County.
6. Overall benefit to the County.
7. Technical approach to meet the County's solid waste needs.
8. Approach and methods of dealing with problems the Bidder believes could occur during long-term hauling and disposal operations.
9. Contractor Equipment and Facilities and Proposed services.
10. Bid completeness and responsiveness.
11. Other information responsive to the Invitation for Bid.
12. Interviews – The County may select one or more Bidders on the basis of the aforementioned factors and request interviews to discuss in detail the project approach and services to be provided.

COUNTY'S RIGHTS UNDER THE IFB AND EVALUATION PROCESS

The county reserves and holds the following rights and options, which may be, exercised at its sole discretion with respect to this IFB and evaluation of Bids and various unsolicited service alternatives:

1. To select and enter into an agreement with a Bidder submitting on the IFB who, in accordance with the evaluation criteria noted herein, best meets the long-term solid waste management and disposal needs and interest of the County;
2. To terminate this procurement process by written notice to the Bidder(s) for any reason whatsoever;
3. To reject any Bid by written notice to Bidder;
4. To supplement, amend, or otherwise modify this IFB in writing;
5. To waive immaterial deviations from the IFB requirements;
6. To amend the scope of services after selection for negotiation on one or more Bidders to include services not currently contemplated herein; and
7. To award a Hauling and Disposal Services Agreement to the most responsible and responsive Bidder, as evidenced during the procurement and negotiation process, and who meets the requirements and evaluation factors as set forth in the IFB and not necessarily to the Bidder(s) presenting the lowest fees in its Bid.

Schedule

The County anticipates adhering to the following schedule:

- Pre-Bid Meeting and Site Visit Tuesday, September 27, 2022 at 9:00 a.m.
- Bids Due to County Monday, October 31, 2022 at 2:00 p.m.
- Contract Award Tuesday, November 15, 2022 at 2:00 p.m.
- Operation July 1, 2023

Bid Submittal

Bids must be submitted to Ms. Ruth Russell, Patrick County Administration, P.O. Box 466, 106 Rucker Street, Suite 218, Stuart, VA 24171. Each Bid shall be submitted in a single sealed envelope or package, bearing on the outside the name of the Bidder and the words, "Sealed Bid for Solid Waste Transporting and Disposal Services."

No bids will be accepted after the proposal due date. The date of postmark will not be considered. Written comments or questions on the IFB will be accepted until 2:00 p.m. on Monday, October 31, 2022 and should be submitted to Ms. Geri Hazelwood, County Administrator, Patrick County Administration, P.O. Box 466, Stuart, VA 24171. No oral interpretations will be made to any Bidder. Responses to all questions will be in the form of a written addendum, used to all Bidders. Any other communications regarding the IFB made in any other manner will not be binding on the County. The Bids received will not be subject to a public opening.

Pre-Bid Meeting

A **mandatory** pre-bid meeting will be held on Tuesday, September 27, 2022 at 9:00 a.m. at the Patrick County Transfer Station located at 22 Transfer Station Lane, Stuart, VA 24171. Answers to questions raised at the meeting will be answered in writing in the form of an addendum issued to all Bidders.

Selection of Contractor for Negotiations

The IFB established general evaluation principles governing the review of Bids submitted hereunder. Notwithstanding those general principles, the County reserves to right, at its sole discretion, to select as the preferred Contractor for negotiations, the individual or entity who or which in the County's judgment, is deemed to be fully qualified and best suited among those submitting bids, taking into account all considerations deemed relevant. The County reserves to right to reject any or all proposals, to waive informalities, and to reissue any Invitations for Bids and/or cancel the procurement in its discretion. The County will not have any liability or other obligations whatsoever for any costs or expenses incurred by any Bidder in the analysis and preparation of a Bid or for a Bid Guarantee hereunder or for any interviews, meetings, contract negotiations, site visits, or other deliberations concerning the same.

Withdrawal from Negotiations

The preferred Contractor may withdraw from the negotiation process at any time prior to the projected date for award of contract. The withdrawal shall be in writing, signed by the same individual who signed the Bid cover letter, and delivered to the County by certified mail. All materials made available to the County up to the date of withdrawal shall become the sole and exclusive property of the County.

Notice to Bidders

Companies not incorporated in the State of Virginia must be registered with and qualified to do business in Virginia by the State Corporation Commission and otherwise be in compliance with State Code in order to enter into a contract with the County.

Bidders must supply with their Bids their Federal Tax Identification Number (FTIN) as such number is shown on their Employer's Quarterly Federal Tax Return. The FTIN shall be inserted on the Cost Proposal page.

SPECIAL PROVISIONS

The Contractor chosen will be required to execute a Service Agreement, the terms of which will be negotiated based on the Invitation for Bids and the Bidders proposal. The County anticipates incorporating the following general terms and conditions in the contract documents. In the event of contradictions between the IFB and the Service Agreement, the Service Agreement will govern. The County expects comments from the Bidders on the contract provisions below, if unacceptable.

Insurance

The contractor shall maintain insurance sufficient to protect the Contractor, the County and the public, and shall be in levels set forth below. Proof of all insurance shall be furnished by the Contractor to the County be certificates of insurance showing the County as an additional insured. Such certificates shall be kept up to date and show the current insurance of the Contractor. They shall have a minimum cancellation time of thirty (30) days, said time to commence after delivery of said notice to the County.

The Contractor shall carry with a company authorized to transact business in the State of Virginia, an insurance policy fulfilling all requirements of the Workers' Compensation Act of Virginia including all legal requirement for occupational disease.

Insurance in the following amounts will be required:

Type of Insurance	Each Person	Each Occurrence	Aggregate
Workers Compensation Public Liability	\$500,000	\$1,000,000	
Property Damage			\$5,000,000
Contractor's Protective Public Liability	\$1,000,000	\$5,000,000	
Contractor's Protective Property Damage			\$250,000
Contractual Liability	\$500,000	\$1,000,000	
Contractual Property Damage			\$250,000
Completed Operations and Products Liability	\$500,000	\$1,000,000	\$2,000,000
Vehicle Liability	\$1,000,000	\$2,000,000	\$2,000,000
Property Damage		\$200,000	

*The County reserves the right to review this insurance coverage annually or at least every three (3) years for possible upward revision that increases the coverage amounts the Contractor agrees to provide.

Terms and Extensions

It is the intention of the County to offer this Service Agreement for an initial term of five years with three renewals of five years as options. The effective date of the agreement will be when signed by both parties. The final terms and conditions for extension and termination will be established during contract negotiations. Operations are anticipated to begin July 1, 2023.

Indemnification

The Contractor, for himself, his heirs, representatives, successors and assigns, in consideration of the award to the Contractor by the County covenants with the County as follows:

- To save, defend, keep harmless and indemnify the County, and all its agents and employees (collectively, the "County") from and against any and all claims, loss, damage, injury, cost (including court costs and attorney's fees), remediation cost, removal cost, clean up cost, charge, liability or exposure, however caused, resulting from, arising out of or in any way connected with the Contractor's intentional, negligent or grossly negligent performance or nonperformance of its Work or obligations called for by the Contract Documents. This indemnification shall survive the termination of the Service Agreement.
- To indemnify the County from liability, including all legal fees, with regard to environmental impairment and remedial actions of any nature, including but not limited to those under CERCLA, which may be required at the Contractor's Disposal Facility receiving waste from the Transfer Station or from any accidents or spills during the transportation of waste from the Transfer Station by or on behalf of the Contractor.
- In executing this agreement, the Contractor represents and warrants that the Contractor has completely read, fully understood, and voluntarily accepted its terms and have executed it expressly to make the covenants in favor of the County described above. In executing this agreement, the Contractor expressly reserves any and all rights that the Contractor may have against any person, firm or corporation other than the County, its successors, representatives and assigns.

Applicable Law

The Service Agreement and Work performed hereunder shall be governed in all respects by the laws of the State of Virginia and the venue for any litigation with respect thereto shall be in the Patrick County Circuit Court or as otherwise required by law. The Contractor shall comply with applicable federal, state, and local laws and regulations.

Project Performance

The performance of the Contractor required by the Contract Documents is subject to the review and approval of Patrick County. However, it shall be the responsibility of the Contractor to manage the details of the execution and performance of its Work under the Contract Documents.

Liquidated Damages

The County specifies that time is of the essence under the Service Agreement and it is essential that the Work be performed in a timely fashion as provided in the Contract Documents from the date specified in the Notice to Proceed. The County and the Contractor agree that damages for failure to complete the work in a timely fashion as agreed are not susceptible to exact determination but that \$1,500 per day is in proportion to the actual loss the County would suffer from such delay. Therefore, in the event that the commencement of services is delayed, the Contractor will compensate the County for the effect of such failure to meet the schedule by payment of liquidated damages in the amount of \$1,500.00 per calendar day until the services commence and are maintained, subject to relief due to "force majeure."

Employment Discrimination

During the performance of the Service Agreement, the Contractor agrees as follows:

- The Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, age, or national origin, except where religion, sex, age, or national origin is a bona fide occupational qualification reasonable necessary to the normal operation of the Contractor. The Contractor agrees to post in conspicuous places, available to the employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
- The Contractor, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, will state that the Contractor is an Equal Opportunity Employer

- Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purposes of meeting the requirements of this section.
- The Contractor will comply with the provisions of the Americans with Disabilities Act of 1990 which prohibits discrimination against individuals with disabilities in employment and mandates their full participation in both publicly and privately provided services and activities.
- The Contractor will include the provisions of the foregoing paragraphs in every subcontract or purchase order over \$10,000, so that the provisions will be binding upon each subcontract or vendor.

Immigration Law

The contractor shall not, during the performance of this contract, knowingly employ an unauthorized alien as defined in the federal Immigration Reform and Control Act of 1986.

Drug-Free Workplace

During the performance of this contract, the contractor agrees to (i) provide a drug-free workplace for the contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the contractor that the contractor maintains a drug-free workplace, and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.

Termination for Cause

The Service Agreement will remain in force for the full period specified and until the County determines that all requirements and conditions have been satisfactorily met and the County has accepted the Work, and thereafter until the Contractor has met all requirements and conditions relating to the Work under the Contract Documents following the Service Agreement, including warranty and guarantee periods. However, the County will have the right to terminate the Service Agreement sooner if the Contractor has failed to perform satisfactorily the Work required, as determined by the County in its discretion. In the event the County decides to terminate the Service Agreement for failure to perform satisfactorily, the County will give the Contractor at least forty-five (45) days written notice before

termination takes effect. Such forty-five (45) day period will begin upon mailing of notice by the County. The Contractor shall have the right to cure said failure within the forty-five (45) days specified in the notice. If the Contractor cures the failure to perform within that period, the termination shall not take effect. If the Contractor fails to cure the failure within the forty-five (45) days specified in the notice the Service Agreement will be terminated, but the Contractor will be entitled to receive compensation for all Contract services satisfactorily performed by the Contractor and allocable to the contract and accepted by the County prior to such termination, less any damages or offsets for expenses incurred by the County due to the Contractor's failure to perform or neglect of its obligations under the Service Agreement.

Except as otherwise directed, the Contractor shall stop work on the date of receipt of notice of the termination or other date specified in the notice, place no further orders or subcontracts for materials, services, or facilities except as necessary for completion of such portion of the Work not terminated, and terminate all vendors and subcontracts and settle all outstanding liabilities and claims.

Bids should be secured in a sealed envelope with the notation Sealed Bid for Solid Waste Transporting and Disposal Services and mailed to the attention of Ms. Ruth Russell, Patrick County Administration, P.O. Box 466, 106 Rucker Street, Suite 218, Stuart, Virginia 24171.

Proposals will be accepted at the Patrick County Administration Building no later than Monday, October 31, 2022 at 2:00 p.m.

All bidders must comply with the requirements of the Code of Virginia and all other applicable laws. The County reserves the right to reject any or all bids.

To download a copy of the official IFB you may visit the Patrick County website at www.co.patrick.va.us and click Contract Opportunities. Please contact Ruth Russell at 276-693-2009 or via email at rrussell@co.patrick.va.us for obtaining the above documentation and to answer any questions.

Patrick County is an Equal Opportunity Employer and will not discriminate on the basis of race, creed, color, sex, national origin, age, handicap or familiar status. Local, minority and female owned firms are encouraged to participate. The county reserves the right to reject any or all bids and to negotiate with the most responsive responder in the best interest of the County.
