

PATRICK COUNTY VIRGINIA

PLEASE READ ALL INFORMATION CAREFULLY

WHEN APPLYING FOR A NEW DWELLING BUILDING PERMIT YOU MUST PROVIDE THE FOLLOWING:

- Sewer disposal & well construction permits (these can be obtained from the Health Dept.)
- Structural building plans
- Information of the mobile home, if applies (year, size, # of bedrooms, etc.)
- Completed building permit application

For power service you will need to contact American Electric Power at 800-956-4237. The Building Inspections office will need the work order number that AEP gives you when you put in your application.

An Erosion & Sediment Permit will be required if you are disturbing more than 10,000 square ft. Any questions regarding this can be directed to Mark Vernon at 276-693-2007.

REQUEST FOR INSPECTIONS

(Under Normal Circumstances)

1. The Building Inspection Office will receive building inspection calls between the hours of 8am – 10am. Inspectors will be in the field between the hours of 10am – 4pm with no appointment times to be given.
2. All work to be inspected must be completed before calling for an inspection. If the work is not completed and to a satisfactory manner when an inspection is conducted then a re-inspection charge will be applied. Please have the following information available when calling in an inspection:

- Permit number
- Name the permit is in
- Type of inspection

THE ABOVE GUIDELINES ARE IN GENERAL CONTEXT. FOR SPECIFIC INSTALLATION REQUIREMENTS, THE MANUFACTURES INSTALLATION INSTRUCTIONS WILL SUPERSEDE ANY INFORMATION CONTAINED HEREIN.

NOTICE OF ESC & SWM PERMIT REQUIREMENTS FOR SINGLE-FAMILY RESIDENTIAL CONSTRUCTION

In accordance with the Patrick County Erosion & Sediment Control (ESC) Ordinance, land-disturbance of 10,000 square feet and greater associated with the construction of any single-family detached residential structure shall require the issuance of a **Land-Disturbing Permit (Form LDA-004)**.

Additionally, and as applicable, in accordance with the Patrick County Stormwater Management (SWM) Ordinance, land-disturbance of 1 acre and greater associated with the construction of any single-family detached residential structure, that is outside a common plan of development or sale (e.g. – subdivision) shall require the issuance of a stormwater **VSMP Authority Permit (Form SWM-007)** and a state **Construction General Permit (VAR10)**. Likewise, any land-disturbance associated with the construction of any single-family detached residential structure, that is within a common plan of development or sale (e.g. – subdivision) shall require the issuance of a stormwater **VSMP Authority Permit** and a state **Construction General Permit VAR10**.

Said permits may be obtained from the Patrick County ESC/SWM Office located in Suite 218 of the Patrick County Veterans Memorial Building. Permit applications can be downloaded at <http://www.co.patrick.va.us/erosion-minutes> and at <http://www.co.patrick.va.us/stormwater-management>.

By my signature below, I hereby agree that if the amount of land-disturbance associated with my single-family detached residential construction project is 10,000 square feet or greater as it pertains to a Land-Disturbing Permit, or if the amount of land-disturbance is 1 acre or greater and is outside a common plan of development or sale, or if my single-family residential structure falls within a common plan of development or sale, as either case pertains to a VSMP Authority Permit and state VAR10 Permit, I will contact the Patrick County ESC/SWM Office and obtain the required permit/s prior to beginning any land-disturbing activities. I also hereby certify that I understand that failure to obtain either of the required permits prior to performing land-disturbing activities is a violation of the aforementioned ordinances as well as state law, and as a result of such failure I may be subject to legal action.

Is This Project Located Within The Town Limits Of Stuart?

- No**
- Yes** ***If so then prior approval from the Town of Stuart will need to be acquired. The Towns Land Use Administrator signature is required before processing permit application.*
- Town Land Use Administrator (Signature): _____**

Please Provide a Brief Description of the Work to be Performed:

Construction Plans

Construction plans must be included with sufficient detail in order for the application to be processed. Plans may be excluded if work is minor in nature and has been pre-approved. All construction is subject to any and all building code regulations regardless of whether indicated on the plans. Plans are not officially approved until field inspections of construction are completed and approved. An Architect or Engineers Seal may be required on plans, due to the Use Group that is found in the Code of Virginia. Unusual or structural building requirements may also require engineered plans.

Plans included:

Is a New Driveway Being Constructed?

Yes ***If a new driveway is being constructed, we require documentation that a permit has been approved and issued by VDOT for the driveway.*

No

Sewage Disposal:

Public

Private: *(**Must provide a copy of an approved sewage disposal construction permit)*

FOR RE-ROOFING, ADDITION, RENOVATION OR DEMOLITION ONLY:
Was property built prior to January 1, 1985 and is this portion of the building included in the re-roofing, addition, renovation or demolition?

Yes *(**If yes, you must complete the attached asbestos regulations form on pages 6-7)*

No

Is The Project In Or Within 200 Feet Of A Flood Plain?

Yes *(A flood elevation certificate is required in order to obtain a building permit.)*

No

Flood elevation certificate has been included

Business Applicants Only: Is The Project In The Enterprise Zone?

Yes

No

The applicant signing for this application is responsible for all required inspections and re-inspection fees that may be incurred by the applicant and/or any sub-contractors.

I furthermore, have identified each contractor, sub-contractor or tradesman as required on the contractor register on page 3 of this application. Or I have affirmed that I am acting as my own general contractor and have completed page 5 of this application.

The applicant further affirms that the identified Owner is in fact, the legal Owner of the referenced Property Identification Number or a portion thereof, and that the deed has been or is in the process of being duly recorded; AND that all information provided on this building application for the issuance of a Building Permit for the referenced property is true and accurate.

Any misrepresentation or false information on this application is grounds for revocation of this permit and will be turned over to our legal counsel.

(I) (We) do understand and will comply with requirements of Chapter 11, Article 1, Section 54.1-1103 of the Code of Virginia.
(I) (We) do understand that any changes to the above register shall be reported to the Building Official within two (2) working days of said change. Any acts prohibited by Section 54.1-1115 shall constitute the commission of a Class 1 Misdemeanor.
Signature: _____ Print: _____ Date: _____

54.1111. Prerequisites to obtaining building, etc., permit. Any person applying to the building inspector or any other authority of a county, city, or town in this Commonwealth, charged with the duty of issuing building permits for the construction of any building, highway, sewer, or structure, or any removal, grading, improvement shall furnish prior to the issuance of the permit, either (i) satisfactory proof to such inspector or authority that he is duly licensed or certified under the terms of this chapter to carry out or superintend the same, or (ii) file a written statement, supported by an affidavit, that he is not subject to licensure or certification as a contractor, subcontractor, or owner-developer pursuant to the chapter. The applicant shall also furnish satisfactory proof that the taxes or license fees required by any county, city, or town have been paid so as to be qualified to bid upon or contract for the work for which the permit is applied.

It shall be unlawful for the building inspector or other authority to issue or allow the issuance of such permits unless the applicant has furnished his license or certification number issued pursuant to this chapter or evidence of being exempt from the provisions of this chapter.

The building inspector, or other such authority, violating the terms of this section shall be guilty of a Class 3 misdemeanor.

Note to Property Owner:

If you have made arrangements with a contractor to do this work, the County of Patrick strongly suggests that the contractor be the party to secure the necessary permit(s). **When a contractor obtains a permit for the owner or applicant, they indicate their responsibility for the work. When you sign this affidavit in order to obtain a permit(s) in your name, you are indicating your responsibility for the work to be performed.** When the permit is issued to the property owner, enforcement actions against a contractor become more difficult. The USBC requires that all notice of violations and legal actions be taken against the permit holder. When the contractor applies for the permit, it give the County the opportunity to verify that the contractor is licensed and certified as required by state and local laws. The unwillingness of the contractor to obtain the necessary permits may be an indication that the contractor is not properly licensed. Please contact the Building Official at 276-694-4143 if you have any questions in regards to this form.

Owners Affidavit

As the owner, I attest that I am if I sub out any of the work to be performed, then the sub-contractors will be listed on the contractors register with the homeowner being registered as the General Contractor.

FAILURE TO LIST SUB-CONTRACTORS OR TRADESMAN IS A DIRECT INDICATION THAT THE OWNER IS THE SOLE BUILDER, which means I am physically performing the work myself.

I _____, of (address) _____
(Name) (Mailing Address)

affirm that I am the owner of a certain tract or parcel of land located at (address):

(Address of where work is being performed)

and that I have applied for a building permit. I affirm that I am familiar with the prerequisites of Section 54.1111 of the Code of Virginia and I am not subject to licensure as a contractor or subcontractor.

Code of Virginia Asbestos §36-99.7

36-99.7. Asbestos inspection in buildings to be renovated or demolished; exceptions.

A. A local building department shall not issue a building permit allowing a building for which an initial building permit was issued before January 1,1985, to be renovated or demolished until the local building department receives certification from the owner or his agent that the affected portions of the building have been inspected for the presence of asbestos by an individual licensed to perform such inspections pursuant to [54.1-503](#) and that no asbestos-containing materials were found or that appropriate response actions will be undertaken in accordance with the requirements of the Clean Air Act National Emission Standard for the Hazardous Air Pollutant (NESHAPS)(40 CFR 61, Subpart M), and the asbestos worker protection requirements established by the U.S. Occupational Safety and Health Administration for construction workers (29 CFR 1926.1101). Local educational agencies that are subject to the requirements established by the Environmental Protection Agency under the Asbestos Hazard Emergency Response Act (AHERA) shall also certify compliance with 40 CFR 763 and subsequent amendments thereto.

B. To meet the inspection requirements of subsection A except with respect to schools, asbestos inspection of renovation projects consisting only of repair or replacement of roofing, floorcovering, or siding materials may be satisfied by a statement that the materials to be repaired or replaced are assumed to contain friable asbestos and that asbestos installation, removal, or encapsulation will be accomplished by a licensed asbestos contractor.

C. The provisions of this section shall not apply to single-family dwellings or residential housing with four or fewer units, unless the renovation or demolition of such buildings is for commercial or public development purposes. The provisions of this section shall not apply if the combined amount of regulated asbestos-containing material involved in the renovation or demolition is less than 260 linear feet on pipes or less than 160 square feet on other facility components or less than thirty-five cubic feet off facility components where the length or area could not be measured previously.

D. An abatement area shall not be reoccupied until the building official receives certification from the owner that the response actions have been completed and final clearances have been measured. The final clearance levels for reoccupancy of the abatement area shall be 0.01 or fewer asbestos fibers per cubic centimeter if determined by Phase Contrast Microscopy analysis (PCM) or 70 or fewer structures per square millimeter if determined by Transmission Electron Microscopy analysis (TEM).
